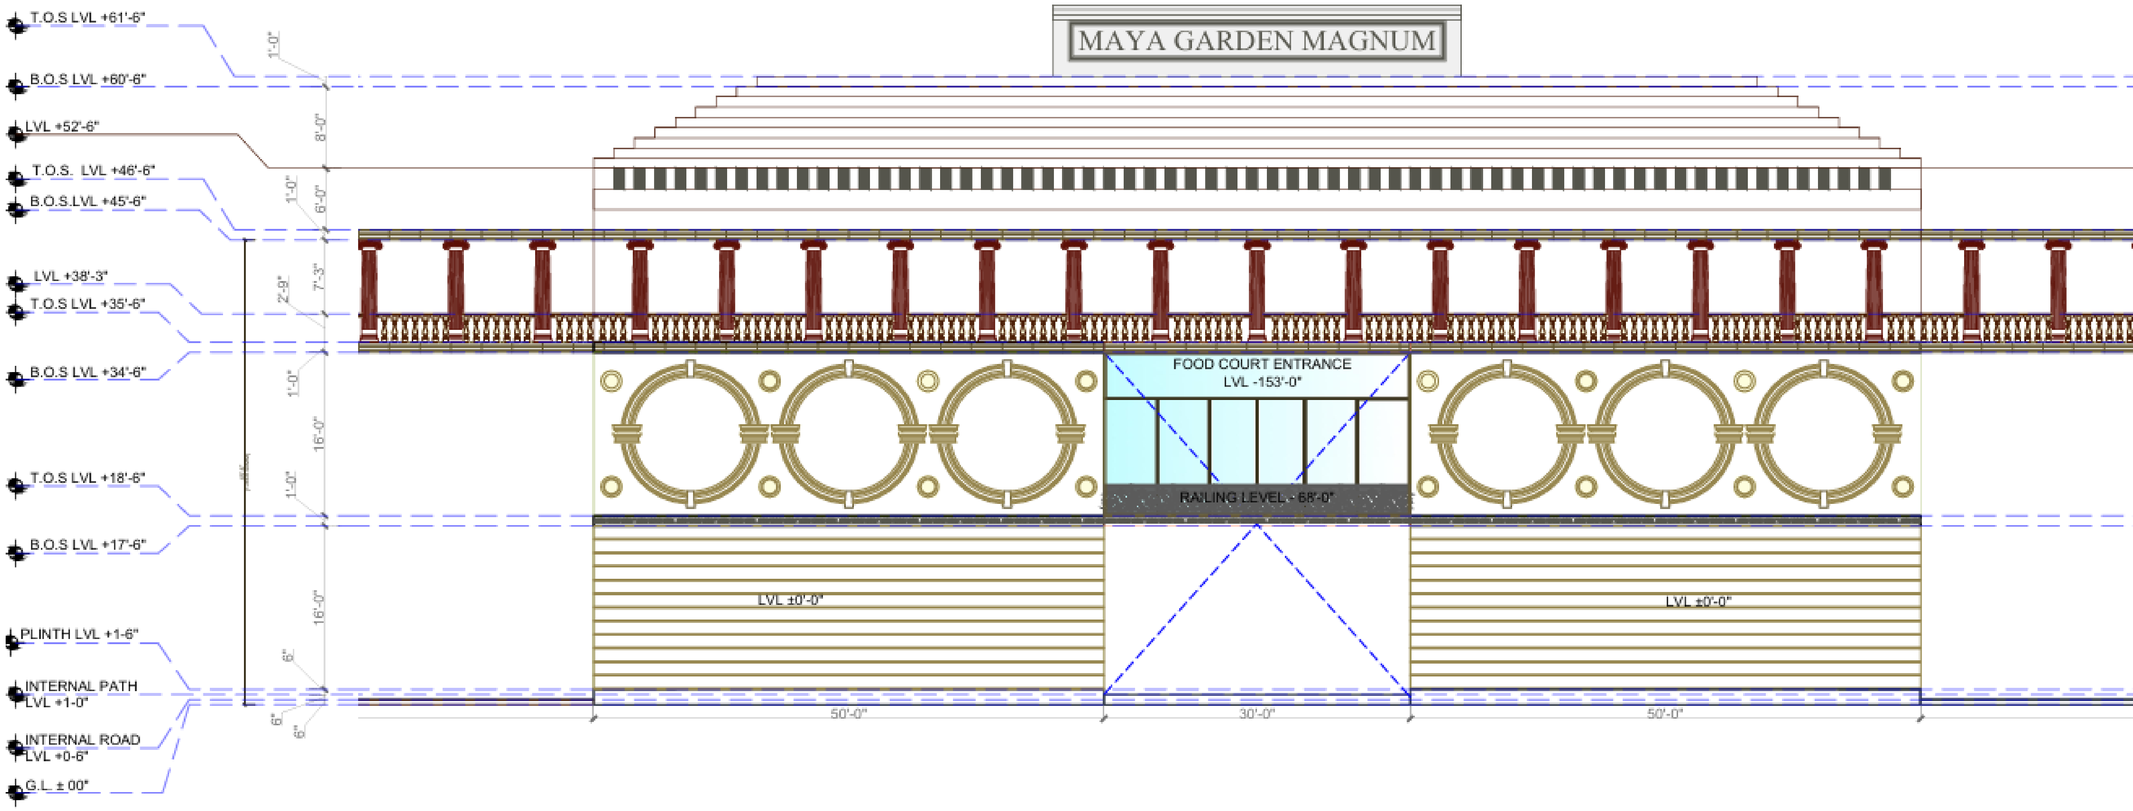
Magnum Maya Garden

Commercial Complex

Magnum by Maya Garden is an architectural landmark inspired by classical European design, featuring majestic Corinthian columns and a striking façade. It symbolizes luxury retail in India, blending royal elegance with modern functionality.

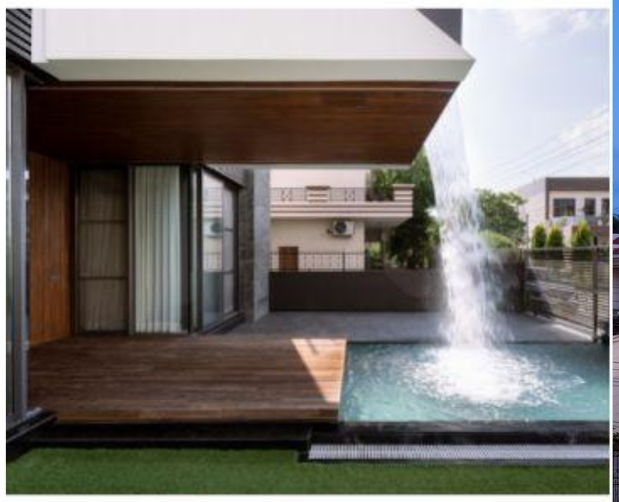
The design balances opulence and subtlety, creating an aspirational yet inviting atmosphere for premium shopping and lifestyle experiences.

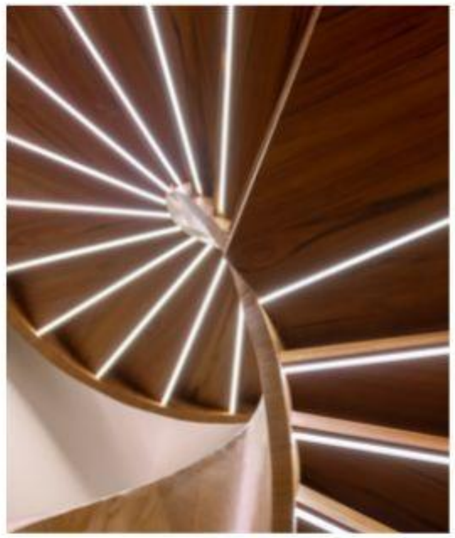
Magnum exemplifies architectural excellence and elevated urban living.

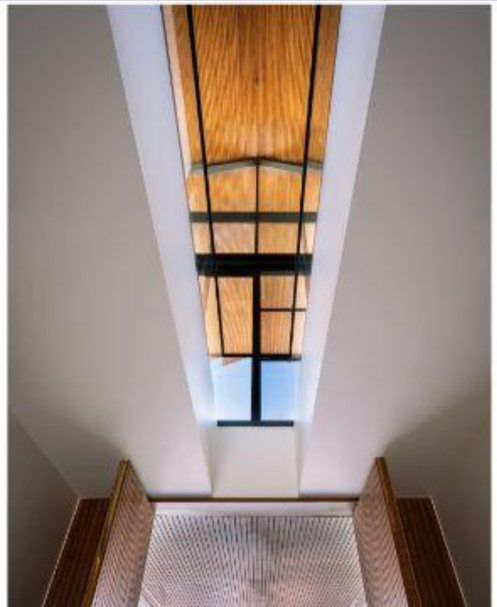


Cascade House

The Cascade House is a modern, contemporary home that remains deeply rooted in traditional architectural practices, blending functionality with beauty and elegance. It is a space that offers moments of calm and reflection, a place where the family can reconnect with themselves and nature.







Riverdale Aerovista

Residential Township
India

Designed and visualized interiors for a plotted housing township, offering two distinct concepts to suit varied client preferences.
The Modern concept focused on clean lines, open layouts, and a neutral palette with contemporary finishes, while the Classical concept featured rich textures, ornate details, and timeless elegance.

Both styles were brought to life through high-quality 3D visualizations, helping clients envision their future homes with clarity and style.
